

AccessPass PartnerNetwork

What is AccessPass PartnerNetwork?

This is our official partner program that grants our clients and technical partners the access needed and the technical training needed to use our software solutions and applicable partner solutions for training, trial and evaluation for production deployments, including cloud application and data services

How much does it cost to join AccessPass?

This program is free of charge to enroll, and there is no contract required to join access pass partner network. The only requirement is to join the program which can be done by sending your contact information to support@nowellgroup.com ; We will need your name, email and day time phone number; This will grant potential customers and technical partners needed access to software, credential access, for pilot use, training and evaluation purposes, fit for investment use case studies, etc.

What benefits does AccessPass grant?

For end users, this is the best and fastest option to stage trials, evaluations and pilot programs for enterprise end users, and technology partners; during which you can learn about Verity EE software solutions, integration and deployment options and much more. For a limited basis, we can also offer WebEx training for end clients and strategic technology partners (please schedule in advance); In addition, we can also share our expertise

How do we get started?

Simply send an email to support@nowellgroup.com and we can take it from there; Access the webpage here: <http://bit.ly/20I WV5X>
