NOWELL

11152 Westheimer Rd 956
Houston, Texas 77042
United States

January 9 2013

Houston, Texas—Nowell Development is inviting all interested including business partners, customers, to team with us to introduce Shalom ESX software and to adopt Integrity message. We believe this is much needed not only for business sake, but for the need to communicate the need for Integrity in the business world

This software capability will help reduce the cloud risk, security and integrity issues. Our software integrates with IBM, Oracle, Microsoft, Linux Directory server products by LDAP integration module and helps to reduce fraud risks, identity and security risks via cloud risk authentication.

Nowell Development believes a collaboration effort between stakeholders is necessary to address the computing challenges of the day

We are offering win-win incentives to all partners who sign up within the first 12 months. Please join us in any way possible and help spread the word. E-mail support@nowellgroup.com ; this software product is hosted via cloud and therefore can be made available internationally
