GRC SaaS: Customer Xperience, Risk Supply chain

## About us

Nowell Software specializes in assisting large and small businesses on using cloud software solutions to improve their customer operations, conduct digital risk safety assessments, reduce their risk posture and drive successful outcomes in various aspects of their operations from HR, to inventory supply chain efficiency, financial performance, customer safety and maintenance while in production. By digitizing their standard operating procedures, companies that work with us have realized performance gains, improved quality and cost savings. Applicable to healthcare, insurance, financial services, manufacturing, small and mid size service-based businesses.

"A partner you can trust"

Our commitment

We are committed to your success from start to finish, operating with the highest standards of integrity and professionalism

Verity GRC SaaS Software

Conduct digital quality risk assessments, improve quality, safety, win and retain new customers, provide new services and process customer service requests

Bring excellence, to your SOPs, supply chain, distribution operations

Verity ServiceCommerce: **Customer Experience Lifecycle supply chain software**

Verity ServiceCommerce business process management software helps companies simplify the customer experience. Onboard new customers, receive and process customer service and production request orders according to your familiar pre-existing approved business process workflow.

Verity also enables you to conduct digital risk assessments and process flows for your specific use case for your customers and assets; Web based software enabled you to onboard and process customer service requests over the internet and mobile device. Companies who adopt BPM software will enjoy better internal team collaboration, reduced expenses, and improved overall customer experience.

Solution Features

- Onboard new customers and manage existing customers.
- Service request management – from order to fulfillment
- Conduct digital process assessments and risk assessments while conducting day-to-day business.
