“A partner you can trust”

Our commitment

We are committed to your success from start to finish, operating with the highest standards of integrity and professionalism

Software Development and Application Integration Services – Cloud Adoption Acceleration

Nowellgroup also specializes in developing and implementing custom software development, for companies migrating to AWS/Azure/GCP cloud, along the following areas

1. Web UI mobile friendly user interface and experience development
2. Data migration and data extraction from one database to another to support data migration
3. Web service integration enabling custom front end websites to interact with web services layers using SSL based Restful services
4. Cloud database implementation and use of cloud virtual machines and securing web applications using SSL certificates
5. Implementing object based solutions to abstract and integrate various applications at the database layer so that applications can interact and integrate with one another: ETL data migration, web services
6. Implementing and using APIs of 3rd party products to enable better integrations between your existing applications to drive better outcomes and better connectivity between your database applications
7. Cloud software development frameworks for AWS, Azure, Google cloud
