BPM Software and Integration Services

About us

Nowellgroup specializes in assisting large and small businesses on using cloud software solutions to improve their operations, conduct risk assessments and process validation, reduce their risk posture and drive successful outcomes in various aspects of their operations from HR, to supply chain, financial performance, customer service and maintenance while in production. By digitizing their standard operating procedures, companies that work with us have realized performance gains and cost savings. Applicable to healthcare, insurance, financial services, small and mid size service-based businesses.
